

Minutes of Group 2 meeting held on June 26, 2022

The meeting began at 15:00 BST with all the group members: Samuel, Jurbe, Andrijana, Isioma, and Jonathan in attendance.

We kicked off immediately, discussing the assignment developments, its structure, and our general target of meeting the word count and the deadline of submission.

The assignment is at its early stage. We all agreed to do an individual review of the document before the final review, among which was to restructure the tables we had in the document in order to meet the requirements.

Andrijana advised that any updates on the references should be communicated to her in order to align them with the Harvard reference style.

Overall, everyone was satisfied with the progress so far.

Assignment submission is due soon, so the meeting ended to allow for more time to retrospect before submission.

The meeting ended at 16:42 BST.
